for the past 25 years joe goldbloom and i have conducted a running debate over whether specifications writers engage in the unlawful practice of law joe s position is that lawyers have no business writing specifications that being the designer s province having been given the honor to write this foreword i have the opportunity for

the last word at least for now joe goldbloom and i first met in 1964 while serving together on the asce committee on contract administration joe became my teacher mentor and friend underlying our good natured debate was the serious issue of the technical qualifications required of a specifications writer as a matter of fact specifications writing traditionally has fallen in a crack between the two professions specifications writing typically is neither taught in engineering school nor in law school engineers are taught how to design lawyers are taught how to draft contracts specifications writing requires mastery of the technical elements of design as well as the skills of contract drafting specifications writing is neither glamorous nor sexy it is often viewed as a necessary evil of the designer's job this volume contains papers presented at the bcs facts workshop on specification and verification of concurrent systems held on 6-8 July 1988 at the university of stirling scotland specification and

verification techniques are playing an increasingly important role in the design and production of practical concurrent systems the wider application of these techniques serves to identify difficult problems that require new approaches to their solution and further developments in specification and verification the workshop aimed to capture this interplay by providing a forum for the exchange of the experience of academic and industrial experts in the field presentations included surveys original research practical experience with methods tools and environments in the following or related areas object oriented process data and logic based models and specification methods for concurrent systems verification of concurrent systems tools and environments for the analysis of concurrent systems applications of specification languages to practical concurrent system design and development we should like to thank the invited speakers and all the authors of the papers whose work contributed to making

the workshop such a success we were particularly pleased with the international response to our call for papers invited speakers pierre america philips research laboratories university of warwick professor m joseph david freestone british telecom organising committee charles rattray dr muffy thomas dr simon jones dr john cooke professor ken turner derek coleman maurice naftalin dr peter scharbach vi preface we would like to acknowledge the financial contribution made by sd systems designers pie camberley surrey accurately interpret graphic and written construction documents construction documents are the vital link between the architect's vision and the finished physical structure building professionals must accurately read and follow these documents in order to build a given design in the most efficient way possible print and specifications reading for construction explains exactly how to interpret construction documents offering students and professionals a complete
