in listening to the logos christopher lyle johnstone provides an unprecedented comprehensive account of the relationship between speech and wisdom across almost four centuries of evolving ancient greek thought and teachings from the mythopoetic tradition of homer and hesiod to aristotle s treatises johnstone grounds his study in the cultural conceptual and linguistic milieu of archaic and classical greece which nurtured new ways of thinking about and investigating the world he focuses on accounts of logos and wisdom in the surviving writings and teachings of homer and hesiod the presocratics the sophists and socrates isocrates and plato and aristotle specifically johnstone highlights the importance of language arts in both speculative inquiry and practical judgment a nexus that presages connections between philosophy and rhetoric that persist still his study investigates concepts and concerns key to the speaker s art from the outset wisdom

truth knowledge belief prudence justice and reason from these investigations certain points of coherence emerge about the nature of wisdom that wisdom includes knowledge of eternal principles both divine and natural that it embraces practical moral knowledge that it centers on apprehending and applying a cosmic principle of proportion and balance that it allows its possessor to forecast the future and that the oral use of language figures centrally in obtaining and practicing it johnstone s interdisciplinary account ably demonstrates that in the ancient world it was both the content and form of speech that most directly inspired awakened and deepened the insights comprehended under the notion of wisdom explores the role of written and oral communication in greece analyzes the variety of religious practices employed to communicate with deities and to interpret the divine response including intuitive divination prophecy technical divination and prayers from a modern perspective journalism is highly relevant to modern society along with the emergence of mass printing system and professionalisation this book however expands the meaning of journalism and views it as a social process it will not only explore the roots and development of chinese journalism and communication but also demonstrate how chinese journalism and communication interact and struggle with social culture and politics arranged in chronological order mainly this

book examines the initial development of Chinese journalism in ancient times in chapter 1 which from then manifested strong political attributes after the opium war in 1840 missionaries and businessmen from the west started to set up newspapers and periodicals in China which brought about the birth of China's modern journalism industry then China's private newspapers and political party's press are studied which are closely linked with political revolutions and have a far-reaching impact on modern Chinese society what happened to Chinese journalism and communication after the founding of People's Republic of China in 1949 this book reviews the newspaper reforms and studies the great negative impacts brought by cultural revolution noteworthy news phenomena after the reform and opening up are also covered this book will appeal to scholars and students in journalism communication and Chinese studies readers interested in Chinese society and modern Chinese history will also be attracted by it digicat publishing presents to you this special edition of *Empire and Communications* by Harold Adams Innis digicat publishing considers every written word to be a legacy of humankind every digicat book has been carefully reproduced for republishing in a new modern format the books are available in print as well as ebooks digicat hopes you will treat this work with the acknowledgment and passion it deserves as a classic of world

literature short enough to be synoptic yet long enough to be usefully detailed a short history of writing instruction is the ideal text for undergraduate courses and graduate seminars in rhetoric and composition it preserves the legacy of writing instruction from antiquity to contemporary times with a unique focus on the material educational and institutional context of the Western rhetorical tradition its longitudinal approach enables students to track the recurrence over time of not only specific teaching methods but also major issues such as social purpose writing as power the effect of technologies the rise of vernaculars and writing as a force for democratization the collection is rich in scholarship and critical perspectives which is made accessible through the robust list of pedagogical tools included such as the key concepts listed at the beginning of each chapter and the glossary of key terms and bibliography for further study provided at the end of the text further additions include increased attention to orthography or the physical aspects of the writing process new material on high school instruction sections on writing in the electronic age and increased coverage of women rhetoricians and writing instruction of women a new chapter on writing instruction in late medieval Europe was also added to augment coverage of the middle ages fill the gap in students' knowledge of the period and present instructional methods that can

be easily reproduced in the modern classroom the volume deals with the mechanisms of the oral communication in the ancient Greek culture considering the critical debate about orality the analysis of the communicative system in a predominantly oral aural ancient society implies a reassessment and a deep reconsideration of the traces which orality embedded in the texts transmitted to us in particular the focus is on the cultural message a set of information which is processed and transmitted vertically as well as horizontally by a living being so to be differently from a genetically encoded information a culturally defined process the survey intertwines different approaches the methodologies of cognitivism biology ethology to analyze the embryonal processes of the cultural messages and the tools of historical and literary analysis to highlight the development of the cultural messages in the traditional knowledge their codification transmission and evolutions in the dialectics between orality and writing the reconstructed pattern of the mechanisms of cultural messages in a prevailing oral aural system cast a light on a shadowy aspect of a sophisticated communication system that has long influenced European culture this volume features an international group of experts on the literature philosophy and religion of the ancient Mediterranean world each paper makes a unique contribution and together the papers draw an engaging
